<b>Описание</b> Design: <a href="https://www.figma.com/file/kG6ep45MYwzNt1desYK6ol/HiSpotter---Design?node-id=970%3A0">https://www.figma.com/file/kG6ep45MYwzNt1desYK6ol/HiSpotter---Design?node-id=970%3A0</a>  This is a screen that users see after the app launches. User will see an option to either Login or Register account. Non-authorized user can't log in to the App and see any content.  User can register account from scratch or use Register via Facebook, Email or phone number. If pressed to register via Facebook it will take the Facebook account saved on the device and offer to use it without the necessity to enter the password once again if already stored. The same for Email, will offer a list of Email accounts without the necessity to enter password if stored on the device. If not, then the user will need to enter the password as well.
