Issue from customer:	Нет		

Описание

The goal is to gather a list with the UI and UX bad old solutions on the platform smarketer.jobs that could be improved from our design and development side.
We assume that all the things which can be improved could bring better performance and change company KPI's in a better way.
Areas to check:
- UI
- UX

Expected result:
- provide the list of the gaps that could be improved in those two areas(UI and UX)
