**Описание**

The goal of this task is, that job ads will not stay active if the users change plan and the new plan has a smaller contingent of active job ads.

Scenario/Steps to reproduce  
user changed plan into a lower plan

Expected result  
Jobs will paused after if the new contingent is lower than the active jobs  
jobs should be paused chronologically (from the oldest jobs to newest)

Actual result  
active jobs will stay active or be automatically be renewed (if selected) regardless of the current contingent

Acceptance Criteria (examples in brackets):  
GIVEN: The user changes his plan to a lower one (basic → starter)  
WHEN: The new plan starts  
AND: He has more active jobs (5) than the new plan supports (1)  
THEN: The oldest jobs should be paused (4) which are not in new contingent  
AND: And not be activated again by automatic renewal
